Combining the power of Pitera with high-quality service, this treatment will leave your skin clear and hydrated.

Best Treatment for Radiance

The Skin Clarity Facial is a nine-step facial designed to clear the build-up of oil and dead skin cells, which can cause inflammation and breakouts if not properly removed. Beginning with a consultation, the facial focuses on an extensive cleansing to prime and prep the skin. Next, an extraction is performed to fully cleanse the skin without distressing it. Finally, each spot is disinfected and a mask and recovery gel is applied so that your skin feels clearer than ever.
